DETAILED ACTION

1. The Amendment filed February 10, 2003 has been received and considered.

Drawings

2. The new formal drawings of Figures 3-6 were received on February 10, 2003.
These drawings are approved by the examiner.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 3-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Fukushima.

Regarding Claim 1, Fukushima discloses a damper assembly (3/23) with a torque limiter 51 having all the features of the instant invention comprising: the damper assembly 3/23 having a single torque transmission path between an input axis and an output axis (see column 2 lines 50-63), a friction torque limiter 51 between the input axis or the output axis (see Figure 2), and an airtight damper 3/23 (see column 2 line 64 – column 3 line 8), wherein the friction torque limiter 51 is in series with the damper 3/23

(see Figure 2) and limiting the torque which can be transmitted through the damper (see column 4 lines 10-47).

Regarding Claim 3, Fukushima further discloses that the torque limiter 51 is provided inside the airtight damper 3/23 (see Figure 2) to form a friction plate 53.

Regarding Claim 4, Fukushima discloses that the torque limiter 51 is provided inside the airtight damper (see Figure 2) to form a conical ring (see column 3 lines 65-68).

Allowable Subject Matter

5. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

6. Applicant's arguments with respect to claims 1-4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

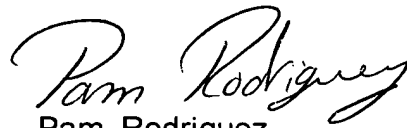

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
